Sage Intacct Integration

Nuvei + Sage Intacct

Every payment, everywhere.

Nuvei + Sage Intacct Integrated Payments
Nuvei for Sage Intacct enables B2B organizations to modernize payments with a secure, automated solution. Combined with the Nuvei Commerce Suite, businesses benefit from improved efficiency, faster cash flow, and a seamless payment experience within their ERP.

Sage recommended solution.

- **Get paid faster:** Offer card + ACH and easy "pay now" experiences (including anonymous links).
- **Lower payment costs *(where eligible):*** Level 2/3 optimization can reduce interchange on qualifying B2B transactions.
- **Less manual reconciliation:** Reduce switching between systems and minimize manual reporting back to Intacct.
- **Better customer experience:** A brandable portal and configurable notifications/receipts help improve how customers pay.

What's included?

- Credit card + ACH payments inside Sage Intacct (fully integrated, cloud based).
- Integrated ACH for one time and recurring payments to reduce payment costs vs. cards (where appropriate).
- Level 2 & Level 3 processing support to help reduce interchange on eligible B2B transactions.
- Anonymous payment links (one time use; no login required).
- Brandable customer payment experience.
- Payments/changes reflected in Intacct in real time; card + ACH payment info records back to the ERP.
- Document support: integrates with payment documents (quotes, sales orders, AR invoices) and can attach/display the original ERP document as a PDF.
- Tokenization for future use (saves tokenized payment information securely).
